

Mandatory skills

Mandatory skills are those skills which are essential for an engineering student to be able to be fit into the job in core /IT company. These are necessary to ensure that an engineering student has a certain iota of any job that he is going to enter.

UG-B.E/B.Tech Skills Programming

SEM Dept	Semester-1	Semester-2	Semester-3	Semester-4	Semester-5	Semester-6	Semester-7
ECE	Foundation Course	PCB Training	Robotics Training	Verilog Training	MATLAB Training	Placement Fit Training	Company Specific Training
EEE	Foundation Course	Series/Parallel connections, Electrical Layout : Domestic and Industry	PCB Design, Design of coil winding,	Smart sensors, Hands on Training in Arduino	Internet of Things, Raspberry pi, High Voltage Equipment testing	Placement Fit Training	Company Specific Training
AI&DS	Foundation Course	Problem Solving & Logical Thinking in C	Python for data science	Desktop/ Web Application development with SQL R Programming	R Programming	Placement Fit Training	Company Specific Training
CIVIL	Foundation Course	Building Design under Statutory Rule (2	Construction Practices and Sustainable	Geometric Detailing	Analysis and Design of Structures - A	Placement Fit Training	Company Specific Training

		Dimension and 3 Dimension)	e Concrete Technology		professional Approach		
CSBS	Foundati on Course	Website Developm ent (HTML, CSS and Java Script)	Python and R programm ing	Programm ing II (Using Java and Android)	Web Programm ing with IOT and Security	Placeme nt Fit Training	Compan y Specific Training
CSE	Foundati on Course	Website Developm ent (HTML, CSS and Java Script)	Programm ing I (Using C and Python)	Programm ing II (Using Java and Android)	Web Programm ing with IOT and Security	Placeme nt Fit Training	Compan y Specific Training
IT	Foundati on Course	Complete 'C' Programm ing BOOT-CAMP	Python BOOT-CAMP	DATA Structures and Algorithm s using JAVA	MY SQL BOOT-CAMP FOR DATA ANALYSIS	Placeme nt Fit Training	Compan y Specific Training
MEC H	Foundati on Course	Mechanica l design using AUTO CAD	FANUC CNC Programm ing	Prototype modeling	Robotics	Placeme nt Fit Training	Compan y Specific Training

PG-MBA/MCA Skills Programming

MCA Department Specific - Mandatory Skill

S.NO	Name of the Technical Skill Training
1	HTML, CSS, PHP VALIDATION, MYSQL
2	Programming using C
3	Full stack using Angular
4	Full stack JAVA
5	Placement Fit Training
6	Company Specific Training

MBA Department Specific - Mandatory Skill

S.NO	Name of the Technical Skill Training
1	Fulfilment by Amazon
2	Corporate Skills
3	PTE Training
4	Business Analysis
5	Tally ERP 9
6	Placement Fit Training
7	Company Specific Training
