2. Measures taken to complete the syllabus of courses and programs.		The outbreak of COVID – 19 Pandemic opened a new foliage in teaching – learning process, Francis Xavier Engineering College (our College) adapted various techniques to take education to their doorstep while staying apart. The conduct of online classes was initiated soon after the lockdown was announced. The online classes were conducted through Google Meet and Zoom platforms which enabled the students get access to their classes from home. The Google classroom facility was very well used by both faculty and student. It was considered the simplest and most efficient way to communicate and document materials between student and faculty. The sharing of materials, links and videos became quite easy with the usage of Google Classroom. The Google Meet link provided the faculty an opportunity to teach the students using Videos and other online programming and coding platforms while enjoying the comfort of home. The recorded class sessions also helped students to refer the missed-out classes to cope with assignment works. The registration of NPTEL, SWAYAM and MOOC courses became an innate practice when it came to online learning. The student assessments were carried out using Google forms, Written submissions and audio/video submissions. The online presentation sessions were much appreciated by both students and parents. Also, the students were encouraged to attend various national and international Guest lectures, webinar series and workshops to upgrade themselves. The online Internships and Implant trainings gave a new experience to the students through gearing up their self-disciplined life. The end semester online exam was conducted as proctored Online MCQ exam using FXCAMs – ERP system of our Institution. Though online teaching learning was found challenging, it was established with maximum perfection to enable the students not to miss out their learning during the time of pandemic.
